WELCOME
Message

Welcome to a moment that defines what comes next.

The 11th ESAF El Safwa Annual Forum, conjoint with the 2nd DEC Damanhour Eye Center Scientific Conference

brings together visionaries, experts, and decision-makers at the forefront of ophthalmology. This is where critical discussions unfold, boundaries are challenged, and experience meets innovation under one scientific stage.

Across these sessions, ideas will collide, perspectives will sharpen, and the future of eye care will take shape one insight at a time.

We thank you for joining us and wish you an inspiring, productive, and memorable conference experience. Together, we move ophthalmology forward.

Systane®

Designed Differently

With its unique combination of HP-Guar, Sorbitol, Borate and demulcents, Systane® works like no other solution to provide relief tailored to each eye

- **Unique Meshwork:** Bonds to form a gel-like layer of protection upon instillation[1]
- **Mucomimetic Properties:** Preferentially binds to dry or damaged areas[1]
- **pH-Adaptivity:** Viscosity changes based on the pH of the ocular surface, providing enhanced protection[2]

For Real Relief, choose Systane®

See instructions for use, precautions, warnings and contraindications
