Join us this January for a special fundraising auction in support of Insulate Ukraine.

Since January 2023, Insulate Ukraine has installed over 22,000 emergency windows across Ukraine. These windows are insulating and shatterproof and provide paid work to local Ukrainians. They benefit those most severely affected by the war: civilians living under chronic bombardment within 70km of the frontline. The windows offer hope, natural light, and warmth. However, the need in Ukraine remains great, and they need your help to reach those experiencing the devastating effects of war.

Insulate Ukraine bring warmth, light and safety to war-impacted homes with an innovative window developed with the help of engineers from the University of Cambridge.

They have installed more than 20,000 windows in cities across Ukraine. Their projects provide work to destitute areas empowering local communities.
